Annexure-I

Applications are invited for the position of Consultant (Advisory Role) to guide the design, implementation, and scaling of a National Genomic Data Distribution Platform under a flagship initiative in computational biology and artificial intelligence.

Scope of work

The consultant will be responsible for:

- Assist in assessing CSIR-IGIB's requirements for cloud computing facilities.
- Guide in preparing detailed specifications for cloud-based solutions aligned with CSIR-IGIB's needs
- Assisting CSIR-IGIB in developing knowledge and capacity on cloud computing
- Assist in drafting technical specifications to enable CSIR-IGIB to avail suitable cloud computing facilities from the market
- Providing guidance on security, compliance, and cost optimization of cloud services
- Advising on hybrid models where on-premises and cloud resources may co-exist.

To facilitate this, we invite **Expressions of Interest (EOI)** from experienced consultants with proven expertise in designing, implementing, and managing cloud environments for large-scale biomedical research datasets.

Nature of Engagement:

- Part-time, advisory capacity
- Flexible schedule, primarily strategic guidance and expert consultation
- Engaging and overseeing the day-to-day management of third party cloud services
- Advising CSIR-IGIB faculty on cloud-based functionalities through periodic interactions

Essential Qualifications:

- Ph.D. in Computational Biology or Computer Science or Bioinformatics or allied fields.
- Proven expertise in omics data integration, big data analytics, and distributed IT infrastructure.
- Strong scientific publication record in peer-reviewed national/international journals.
- Demonstrated experience in bioinformatics platform development and collaborative work.

Desirable:

- Faculty members from reputed Indian Institutes/Universities with leadership experience.

- Experience in national/international genomics consortia.
- Familiarity with data privacy, security, and large-scale scientific data governance frameworks.

Roles & Responsibilities:

- Engaging and overseeing third-party cloud service management
- Interacting with CSIR-IGIB faculty in an advisory role on cloud-based functionalities at periodic basis
- Provide strategic and technical guidance on the development of the Genomic Data Distribution Platform
- Advise on interoperability standards and scaling strategies for large-scale datasets

✓ Engagement Details:

- Position: Consultant in advisory role on part-time basis
- Duration: The initial tenure is for 6 months. On satisfactory performance may be extendable up to 18 months, subject to satisfactory performance assessment conducted every 6 months

✓ EoI shortlisting criteria:

- Academic background (40%).
- Relevant cloud/HPC experience (40%).
- Experience with academic large scale data handling (20%).
- If necessary, the interested parties would be required to give presentations before a technical committee
- Final decision would be by Director, CSIR-IGIB, which may include other considerations as deemed suitable
